SPHiNX™

LEVERAGE THE VALUE OF VIRTUAL OVER PHYSICAL TAPE

SPHiNX is the most affordable disk-based (virtual tape) appliance to provide complete data protection, consolidate backups, and streamline disaster recovery.

FASTER
SHRINK BACKUP WINDOWS WITH AUTOMATION AND CONSOLIDATION

SPHiNX offers extremely performant data protection and rapid disaster recovery, through automated replication and consolidated backups from multiples hosts or operating systems.

SAFER
REDUCE RISKS FOR ALL YOUR COMPLIANCE REQUIREMENTS

SPHiNX virtualizes your data to extend the life of your physical media and to minimize the risks of mechanical errors and data loss. It also protects yourdata through offsite replication and encryption.

SIMPLER
A "PLUG AND PLAY" APPLIANCE FOR THE VERY BEST USER EXPERIENCE

Offering a virtual backup solution, SPHiNX eliminates tape manipulation and improves your productivity through automation. Simple to install and setup, SPHiNX is also extremely intuitive and easy to use.

COMPATIBLE
SEAMLESSLY INTEGRATE SPHiNX WITH YOUR ENVIRONMENT

• IBM i (SYSTEM i, iSERIES, AS/400)
• Windows
• UNIX
• Linux
• AIX
• Unisys MCP ClearPath
